

kR H₂

A vertical color bar indicating plasma density in kR H₂. The scale is logarithmic, with major ticks at 1, 10, 100, and 1000. The color transitions from dark blue for the lowest values to bright yellow for the highest values.

Value (kR H ₂)	Color
1	Dark Blue
10	Medium-Dark Blue
100	Medium Blue
1000	Bright Yellow
